

Trustee Effectiveness – what really makes an effective Trustee board?

This breakout session will consist of a facilitated discussion around Trustee Effectiveness – what is it, how are you currently evaluating this and how might you do this going forward? This is a broad topic which goes to the heart of ensuring Trustees make a real difference from their role both as an individual and as part of a high-functioning board.

How would you define a really effective Trustee board?

How diverse is your board?

Does your board suffer from groupthink?

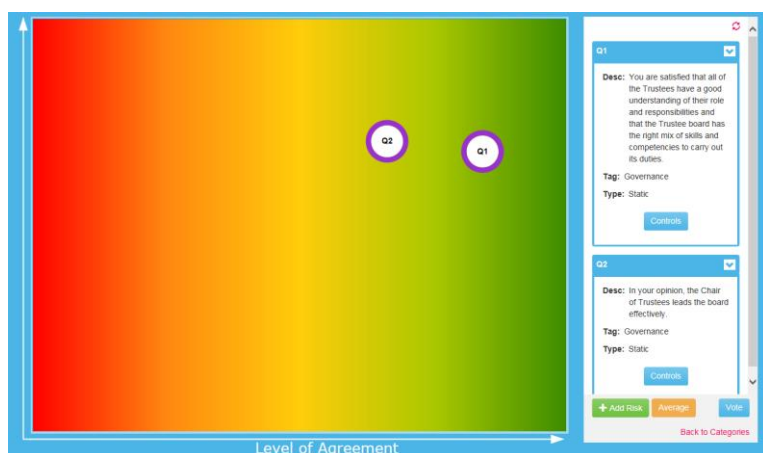

Is your Chair a strong leader?
